To Whom It May Concern,

Earlier this year in our Boynton Beach location Chillin was installed in our air conditioning package units. We were told that we may expect some savings on our electric bill. But what really happened is that our electric bill the next month dropped by \$447.15! This occurred even though the next month's outdoor air temperature was warmer than in the prior month.

This started out as an experiment to see if it could help. Now it has been decided that Chillin will be utilized in other R. J. Gators locations as well.

At R. J. Gators we say "thank you" to Search Energy Solutions".

Sincerely,

Mitch Timoteo
